SanoVerde® Floor Finish

SanoVerde® Floor Finish is a zinc free interlock polymer coating that dries to a deep gloss and is extremely durable under heavy traffic. When used with **SanoVerde® Floor Restorer (gel or liquid)**, the finish is easily repaired, cleaned and restored to a brilliant gloss. Use with the companion **SanoVerde® Deep Scrub & Stripper** and **Floor Cleaner** products to have a safe, clean floor surface.

How to use:

The existing finish must be completely removed and the new finish applied to a clean, dry floor.

1. Apply finish in straight, even strokes using a micro-fiber flat mopping system.
2. Allow to dry completely. Do not re-work finish while it is drying.
3. When dry, additional coats may be applied. For assured no-strip* results, five coats must be applied.
